

SEJEM MEGRA

33. INTERNATIONAL FAIR FOR CONSTRUCTION

17. - 19. 4. 2024
Gornja Radgona, Slovenia

BUILDING IN HARMONY WITH NATURE!

ADAPTING CIVIL ENGINEERING TO EXTREME NATURAL CHANGES

FOCUS

The 33. International Fair for Construction MEGRA 2024 will be held in the Olympic and Leap Year of 2024 under the sign of many challenges brought about by climate change both globally and in Slovenia. The consequences of climate change have caused a lot of problems for Slovenia in recent years with numerous weather catastrophes. They have not only had a negative impact on agriculture and the operation of food chains, but have also caused enormous material damage to many other important social systems, such as industry and trade, transport, water management regulations as well as communal and energy supply. The population itself has also suffered a major material impact. One of the key thematic debates at this year's MEGRA Fair will therefore certainly touch on the issue of better-calculated interventions and the choice of more durable building materials and constructions.

The second very important segment of Megra 2024 will be education for construction and trade occupations. Without adequate knowledge of planners and contractors of construction and trade services, it will be very difficult to ensure high-quality construction and the maintenance of buildings and infrastructure. New knowledge is particularly important in the light of increasing digitalisation and the use of artificial intelligence as an indispensable means of operation at all levels of the economy and society, of which construction is also an important part. All aspects of educational processes, personnel challenges and the introduction of digitalization processes in the construction industry will be addressed at the traditional Educational and Career Day of Slovenian Construction Industry, which will be held on the last day of the fair.

The 33. International Fair for Construction MEGRA 2024 presents significant business opportunities for companies and entrepreneurs offering innovative solutions in the fields of planning development, construction, production of building materials, machinery, and tools. At the same time, it offers a range of job opportunities in many construction-related activities. Construction is not only an engine of the economy, it is also an engine of technological development in many areas.

The efforts made by the Chamber of Construction and Building Materials Industry, the Chamber of Crafts and Entrepreneurs of Slovenia, and all the others who strive to be a part of this development are invaluable... They are indispensable in finding solutions to mitigate the consequences of climate change, in filling personnel gaps, and in further modernization and development of the construction industry as one of the most important economic sectors. To all of you involved in this process, I would like to take this opportunity to sincerely congratulate you and thank you for your valuable contribution. I would also like to wish you a successful promotion at the upcoming Megra 2024.

B2B EVENT

CRAFTS - APPRENTICESHIP

ACCOMPANYING EVENTS

- Presentation occupations in deficit
- Free construction and energy consulting
- Competition of students in bricklaying
- National competition of young tinsmiths and roofers
- Competition for elementary school children
- Craft Street for members of sections of the Chamber of Craft and Small Business of Slovenia

ID CARD 2023

9.500 m²
total exhibition space

185
exhibitors

12
participating countries

6.500
visitors

CONSTRUCTION

CONSTRUCTION

- city planning
- designing
- engineering consultation services
- construction of buildings
- engineering construction works
- special construction works
- restoration and renovation
- landscaping
- geotechnical works

CONSTRUCTION MATERIALS

- bonding agents and industrial mortars
- construction elements
- pre-fabricated construction elements
- insulation materials
- screeds and pavements
- restoration materials
- materials and elements for the design and equipment of gardens, playgrounds and parking areas

BUILDERS' JOINERY AND CARPENTRY AND CONSTRUCTION ELEMENTS

- windows, doors, shades
- winter gardens
- staircases, protective fences and balcony railings
- chimneys

CONSTRUCTION CHEMISTRY

- paints, varnishes, coatings
- sealing masses, adhesives

BUILDING MACHINERY, EQUIPMENT AND TOOLS

- machinery and equipment for separation, concrete and asphalt plants
- construction machinery and facilities
- freight and special vehicles
- planking and supporting systems, scaffolding
- tools
- geodesic measurement gadgets and instruments

MODERN HOUSES

- low energy and passive construction
- prefabricated wooden buildings
- construction with aerated concrete and bricks
- eco-construction
- energy improvement of buildings
- materials and systems for low energy construction
- modern facade systems
- energy efficient windows
- advanced thermal insulations
- shades and optimum use of daylight

ROOF TRUSSES AND ROOFING

- roof constructions
- roofing, gutters

SECURITY, PROTECTION, RESCUE

- burglar-proof doors and windows
- fire-fighting equipment
- anti-flood equipment
- alarm equipment and systems
- equipment for self-protection
- equipment for facilities
- vehicles, upgrading and equipment

CONSTRUCTION SITE EQUIPMENT

- containers
- sanitary cabins
- construction site lighting
- fences and protective nettings

ELEVATORS

- for freight, passengers and disabled people
- lifting equipment

ENERGETICS

HEATING, VENTILATION, AIR CONDITIONING

- heating devices and systems
- ventilation systems and equipment
- air conditioning systems and equipment

RENEWABLE ENERGY SOURCES (RES)

- solar power plants and equipment
- thermo-solar systems
- wind energy
- hydropower plants
- geothermal energy
- biomass
- biogas and waste
- heat pumps

- fuel cells
- CHP (cogeneration of heat and power energy)

ENERGY DEVICES

- heat conductors
- cooling towers
- boilers
- ejectors

FUEL (ENERGY-GENERATING PRODUCTS)

ELECTRICAL DEVICES

- power transfer and distribution equipment
- cables and installation wires
- switching and measurement technology
- power and electronic components

- power device protection and regulation products
- batteries and accumulators
- tools
- power management systems and equipment

E- MOBILITY

- electric cars
- electric motorcycles
- charging stations

INDOOR AND OUTDOOR LIGHTING

- energy efficient lighting
- LED lighting
- energy efficient public lighting
- home automation
- solar lighting and appliances

CRAFT - BUSINESS

CRAFTS IN CONSTRUCTION

- construction work
- installation works
- drywall installation
- drywall work
- construction materials
- roofing

INSTALLATIONS

- electrical installations
- water installations
- hydro installations
- heating installations
- air-conditioning of buildings
- machine installations

FINISHING WORKS IN CONSTRUCTION

- painting works
- tinsmith works and roofing
- ceramic works
- parquet flooring
- laying of floor coverings
- stove-maker's
- metal works
- joiner's work
- glazier's work
- painting works and sign painting

MAINTENANCE

- cleaning buildings
- chimney sweeping

LANDSCAPING

- floriculture and horticulture
- stonecutting
- cement works
- terrazzo making

OTHER FIELDS OF TRADES

- processing of plastics and tyres
- funeral services

MUNICIPAL SERVICES

MUNICIPAL INFRASTRUCTURE

- equipment and technology for the maintenance of municipal infrastructure

LANDSCAPING

- consultancy, planning and landscaping
- landscaping materials and elements
- landscaping machinery and equipment
- trees and other vegetation
- watering and irrigation systems for green areas
- garden furniture, fences and other equipment

EQUIPMENT FOR THE HOME

- small water treatment plants
- tanks for collecting rainwater
- room and garden composter
- water purifiers
- domestic grinders for kitchen garden waste

EQUIPMENT FOR PUBLIC AREAS

- information and orientation systems
- kiosks, vending machines
- bicycle stands
- tree protection, flower boxes

- public and portable toilets
- public benches, chairs, tables
- equipment for elderly and disabled persons
- other equipment

LEISURE, SPORTS AND EDUCATIONAL CENTRES

- equipment for sports centres
- playground equipment
- school equipment
- bathing places, swimming pools

CHIMNEY-SWEEPING SERVICES AND EQUIPMENT

EQUIPMENT AND SERVICES FOR THE MAINTENANCE OF PUBLIC AREAS

- garbage cans and containers
- machinery and equipment for cleaning of public areas
- winter service
- cleaning and maintenance service providers

WATER MANAGEMENT

- preparation and drinking water supply
- discharge and purification of waste and drainage water

WASTE MANAGEMENT

- equipment and machinery for waste collection and recycling
- waste recovery and equipment
- equipment and installations for incineration of waste
- equipment and installations for waste disposal
- public and household bins for separate collection of waste

SOFTWARE, INFORMATION SYSTEMS

ENVIRONMENTAL PROTECTION

- equipment for protection against adverse environmental impacts
- air and flue gas purification
- land rehabilitation and decontamination
- watercourse purification and planning
- measurements, regulation and control systems
- environmental engineering
- Public lighting
- Transport network and parking areas

SUSTAINABLE TECHNOLOGIES AND GREEN LIFESTYLE!

GREEN TECHNOLOGY AND INNOVATIONS

- research and development
- future technologies
- information technology and electronics
- new approaches to food production
- eco-intelligent products

RENEWABLE ENERGY

- solar, wind and geothermal energy
- fuel cells
- gas
- hydro energy
- biomass
- waste to energy

SUSTAINABLE URBANISM, CONSTRUCTION AND ARCHITECTURE

- spatial planning
- eco and bio construction and restoration of buildings
- landscaping

ECO-FRIENDLY MOBILITY

- electric vehicles and charging stations
- hybrids
- vehicles on liquid gas
- alternative vehicles and services

GREEN TRADE, ENTREPRENEURSHIP AND INDUSTRY

- production and products, environmentally and human friendly throughout their life cycle
- green employment
- healthy and safe working environment

PROTECTION AND REHABILITATION OF THE ENVIRONMENT

- prevention of water loss
- ecological wastewater treatment plants
- environmental engineering and services

LIVING WITH NATURE

- eco-bio furniture
- green - major and small household appliances
- healthy and organic food
- equipment and materials for cleaning
- purification of water and air
- pets and plants
- garden

GREEN CONSUMPTION AND LIFESTYLE

- sustainable design
- fashion
- health and personal care
- rest and leisure time
- human and environmentally friendly consumable products
